AROUND *the* TOWNSHIP

It's Fiesta Time

Decoto, Centerville and Alvarado have had theirs and what a celebration!

Mission San Jose gets going tomorrow. And, Niles has announced July 30 and 31 for the big event.

Yessir, it's Fiesta Time!

Bob Roe, newcomer in these parts, is out to make Washington Township and environments dance conscious. Right off the bat at Palomar he is offering an opportunity to trip the light fantastic in most any fashion desired. There will be oldtime dancing, modern dancing, waltz night and stuff.

Bob insists, however, that a clean, moral atmosphere will prevail at all times. He's willing to prove it on your first visit.

After a shower bath, the horse was as good as new after falling into an eight-foot cess pool on the Witherly Ranch at Mission San Jose. The animal was rescued by H. L. Justus' tow car after an hour's effort.

* * * *

Another drowning up Niles Canyon in Alameda Creek. Another hurry call for an inhalator. Again the Centerville Fire Department responded with the only such equipment in the township.

Drownings are accidental and the hour of their happening cannot be anticipated. The next best thing is to be prepared to do all possible to save a human life in this as in any other emergency.

Niles perhaps lays more claim to the canyon playground as a recreational attraction and by virtue of its geographical location perhaps is more responsible for the safety of the swimming enthusiasts that area draws than the remainder of Washington Township. Therein rests a responsibility.

Therefore, it would appear that equipping the Niles Fire Department with an inhalator comes under the heading of urgent business. It should be done immediately as the summer swimming season already is in full swing.

We cannot always impose upon our Centerville neighbors and become a chronic borrower.

Urge Caution In Starting Rubbish And Grass Fires

NILES—A warning against the fire hazard was issued this week by the Niles Fire Department in seeking the cooperation of residents during the dry season. The hazard is greater this year due to heavy growth of grass and weeds, it was stated.

Residents are asked:

Not to burn grass or rubbish without a permit.

Clean rubbish and grass away at least three or four feet from buildings and fences.

Not to burn when there is a wind. Early morning is the best time.

Be prepared, have garden hose connected, wet sacks ready and water bucket.

The department will gladly assist in burning grass and rubbish after it has been cleaned away from buildings and fences.

CHARGED WITH HAVING "KNUCKS"

NILES—Valentine Terra, 40, of Niles will appear before Judge J. A. Silva at the Niles Justice Court this afternoon on a charge of possession of metal knuckles.

He is also charged with a prior conviction of robbery in the first degree for which he served a term in San Quentin. He is in the county jail in lieu of $500 cash bail.

Outline Welfare Plan For Young Folk Of Township

CENTERVILLE — A six-point program for the welfare of the young people of Washington Township was outlined at the May meeting of the Co-Ordinating Council at the Washington Union High School by a committee composed of Mrs. E. A. Ellsworth, Mrs. Geo. Bonde and Mrs. W. L. McWhirter.

Projects suggested include a 12-months' supervised program for the approximately 3000 boys and girls of the high school and the upper grades of the elementary schools of the township. Specifically suggested are supervised night baseball games, supervised recreation at gymnasiums at each school, construction of tennis courts at grammar schools, enlargement of programs of Boy Scouts, Girl Scouts and Campfire Girls and enforcement of the compulsory school law providing that all children up to the age of 18 years attend either day or night school.

Possibility that the night school program of the high school might be enlarged to the extent of providing teachers for the supervision of grammar school children in play periods was discussed. Principal A. J. Rathbone stated that this suggested program of supervised recreation might become a reality if the public were convinced that it was a necessity for youth welfare and not merely one of the "frills" of modern education.

He also said that he thought it would be possible to have the high school gymnasium available five nights a week for recreational activities. He reported projects now under consideration for the high school as including enlargement of the cafeteria, home-making department, lighting of baseball field, new music room, stage improvements and a pit for automobiles.

The desirability of a swimming pool for the township was also discussed.

Before the business meeting of the council, George Ushijima who recently won a public speaking contest, gave an oration on "What citizenship means to me." He was heartily applauded.

The case of one high school student needing medical aid will be referred to the county health department by Dr. I. O. Church who was present. Another situation involving court charges against local boys was referred to Deputy District Attorney Joseph Schenone, present at the meeting.

This was the last meeting of the year, the members of the council signifying a desire to continue the group meetings next Fall.

Restrict Sales Of Fireworks As Fire Prevention

Reduction of fire hazard by restriction of the sale of fireworks is being sought by the Alameda County Firemen's Association, according to a report of the recent executive meeting by Clarence Crane of Niles, publicity chairman.

A committee composed of Chief Frank Sandy, of Oakland, Chief Carl Peterson of Piedmont and Ex-Chief Bert Rose of Emeryville will promote a move to have a State law regulating sale of fireworks. A resolution was passed asking the Alameda County Board of Supervisors to exercise strict control over the permits for sale of fireworks in the county.

Additional caution in fire prevention is needed this year, firemen state because of the increased hazard resulting from heavy rains and unusual growth of grass. Letters were received from the sheriff's office and from the Motor Vehicle Department stating that officers had been asked to wage war on careless motorists who throw lighted cigarettes and matches from cars.

A meeting of the Washington Township committee will be held this week to draw up a county ordinance controlling fire prevention in unincorporated districts. Chief Fred Rogers of Centerville is chairman of this committee.

At this same meeting a map will be completed locating all fire departments in the county. A copy of this map will be placed in the sheriff's office to be used in cooperating with fire departments in case of large fires. Chief Manuel Riggs of Hayward is chairman of the committee working on the map.

The next meeting of the association will be held at the Fairmont Hospital, on June 23.

Chief Tom Lane of Alameda stated that the radio skits of fires in the county would be broadcast some time this summer. Several departments are preparing scripts to be used in these programs.

COMMENCEMENT

Commencement month again flings wide the great gates leading from the campuses of America's high schools and colleges.

And along that broad highway youth's legions, hundreds of thousands strong, march forth this June into the stern and earnest world where men must work for their daily bread, their security, anl their happiness.

The valedictorians may have skeptical things to say of the world they and their classmates are entering. The goal and cherished hope of nearly every youth, the hallmark and gauge of his success, is work. But seldom has the competition for that prize, a job, been more gruelling or more anxiously waged.

A little over a generation ago, there were 100,000 youngsters in our country's high schools. Today there are 6,000,000! In the last 50 years our population has increased by two and one half times, but our high school population has multiplied approximately 60 times! The economic uncertainties of the last eight years have also contributed their difficulties.

But the courage and confidence of youth in the face of these obstacles is more than to be praised and honored. It should, and must, accomplish something more. Let it arouse all citizens to aid actively in maintaining that confidence and courage by seeking to provide our young people, as far as we are able, with the work, encouragement and self-confidence they need.

Then Commencement will truly signify the Beginning—the start of new life for youth in a world that takes pains to show it wants and needs youth.
